8. **Auburn Transit Special Route**

Transit Analyst Megan Siren advised that Council had previously requested staff to provide a proposal for a bus route to be utilized for special events in Auburn. She said that during the weekend of May 16-17 there will be a Home Show at the fairgrounds, the Endurance Expo at the School Park Preserve and the Antique Fair in Old Town. She said the special route for that weekend would provide stops at the fairgrounds, Elder Station, the School Park Preserve and Old Town. She advised of the times of operation and approximated the route at 15 minute headways. She said the cost to the City would be \$1,300.00.

Council Member Kirby advised that the action generated from a conversation he had regarding the Mandarin Festival and how to bring people into the community. He said that he and the Mayor have had conversations with local businesses and the Chamber of Commerce. He said it is really a test to see if there will be additional ridership during the events. He advised that it would be a one-time trial to measure the success of the operation. He said flyers would be available at the fairgrounds to announce the free shuttle service. He said if it proved to be successful, Council approval would then be sought for other significant events.

Council Member Hanley asked if there was a way to measure ridership each day. Ms. Siren advised that the tally could be provided to the Council. He asked how the money to be used for the bus service would have otherwise been expended.

Engineering Division Manager Bernie Schroeder advised that it is the recommendation of the staff not to use transit monies. She said with that use there is an obligation to charge a fare.

City Manager Richardson advised that staff recommended it be paid out of the General Fund. He said typically this type of funding comes from the Economic Development Commission, but its funding has tightened considerably under the current budgetary conditions. He said within the next few months staff will return to Council with different proposals for community support efforts.

Council Member Hanley stated that he appreciates Council Member Kirby's goal to encourage people to visit Old Town and Downtown. He said that he would support the one-time trial, but is a little bit skeptical about ridership. He said out-of-town visitors may prefer the convenience of their own vehicles. He said a booth supported by the business community that provides information about Auburn venues may be just as successful.

By **MOTION** authorize the additional special route for Transit on the weekend of May 16-17, 2009 with the understanding it is a test only, and that staff will report back to the Council on its success. **MOTION:**  
**Kirby/Hanley/Approved by Voice (Absent: Nesbitt, Holmes)**
